

Frizz & Heat Control n.15

ACTION

Smoothing thermo-protective serum.

Smoothing thermo-protective serum with a rich blend of Amino Acids from Wheat, Corn and Soy. Their low molecular weight allows the blend to penetrate the hair, ensuring protection from heat, frizz control, hydration and elasticity. Rich in Olive Oil, it provides natural moisturisers and nutrients, including antioxidant Vitamin E, and vitamin A, an important nourishing factor for the skin, and essential fatty acids such as linoleic acid.

HOW TO USE

Apply evenly on the lengths and ends of towel-dried hair and dry as desired.
